DETAILED ACTION

This Office action is in answer to the application filed March 19, 2004.

Allowable Subject Matter

1. Claims 1-15 are allowed.

With regard to claims 1-13: none of the references of record prior to applicant's filing date discloses, teaches, or suggests a battery pack comprising, *inter alia*, when no abnormality is detected the other end is connected to the contact connected to the second output terminal, and when an abnormality is detected the other end switches to the contact connected to the third output terminal.

With regard to claims 14-15: none of the references of record prior to applicant's filing date discloses, teaches, or suggests a method for detecting battery pack abnormalities comprising, *inter alia*, a step, when the protection device detects a rechargeable battery abnormality, to bypass the detection device and connect the second electrode of the rechargeable battery to the third output terminal; and a step for the electrical equipment to detect abnormality via the third output terminal, and transition to a specified abnormal mode of operation, which can operate at a lower voltage than the specified voltage of the rechargeable battery.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Pia Tibbits whose telephone number is (571) 272-2086.
